NoTE: Any documentation used in validating the compliance or existence of each construction or mitigation attribute must accompany this form. At least one photograph must accompany this form to validate each attribute marked in questions 3 though 7. The insurer may ask additional questions regarding the mitigated feature(s) verified on this form. Building Code: Was the structure built in compliance with the Florida Building Code (FBC 2001 or later) OR for homes located in the HVHZ (Miami-Dade or Broward counties), South Florida Building Code (SFBC 94)? A. Built in compliance with the FBC: Year Built	City: Largo		Zip:	33770						
Year of Home: 1975					. ,	0383				
NOTE: Any documentation used in validating the compliance or existence of each construction or mitigation attribute must accompany this form. At least one photograph must accompany this form to validate each attribute marked in questions 3 though 7. The insurer may ask additional questions regarding the mitigated feature(s) verified on this form. 1. Building Code: Was the structure built in compliance with the FBC verified and building Code (FBC 2001 or later) OR for homes located in the HVHZ (Miami-Dade or Broward counties), South Florida Building Code (FBC 2001 or later) OR for homes located in the HVHZ (Miami-Dade or Broward counties), South Florida Building Code (FBC 2001 or later) OR for homes located in the HVHZ (Miami-Dade or Broward counties), South Florida Building Code (FBC 2001 or later) OR for homes located in the HVHZ (Miami-Dade or Broward counties), South Florida Building Code (FBC 2001 or later) OR FC ear Built and the after 31/12002; Building Permit Application Date (Miami-Dade or Broward Particular) Or FC (Linknown or does not meet the requirements of Answer "A" or "FB" 2. Cushnown or does not meet the requirements of Answer "A" or "B" 2. Roof Covering: Select all roof covering types in use. Provide the permit application date OR FBC/MDC Product Approval number OR Year of Original Installation/Replacement OR indicate that no information was available to verify compliance for each roof covering identified. 2. It Roof Covering Type: 2. Provint Applications 2. Roof Covering Type: 2. All roof coverings listed above meet the FBC with a FBC or Miami-Dade Product Approval listing current at time of installation OR have a roofing permit application date on or after 31/1202 OR the roof is original and built in 2004 or later. 3. Roof Deck Attachment: What is the weakest form of roof deck attachment? 4. Phywood/Oriented strand board (OSB) roof sheathing attached to the roof truss/rafter (spaced a maximum of 24" inches o. c.) by staps or of duals spaced at 6" along the edge and 12" in the field -		<u> </u>								
accompany this form. At least one photograph must accompany this form to validate each attribute marked in questions 3 though 7. The insurer may ask additional questions regarding the mitigated feature(s) verified on this form. 1. Building Code: Was the structure built in compliance with the Florida Building Code (FBC 2001 or later) OR for homes located in the HVHZ (Miami-Dade or Broward counties), South Florida Building Code (FBC-94)? □ A. Built in compliance with the FBC: Year Built	Year of	Home: 1975	# of Stories: 2	# of Stories: 2		Email: qscbuild@yahoo.com				
The HVHZ (Miami-Dade or Broward counties), South Florida Building Code (SFBC-94)? A. Built in compliance with the FBC: Year Built ada tate after 3/1/2002: Building Permit Application Date (MMDDYYYY) B. For the HVHZ Only: Built in compliance with the SFBC-94: Year Built for Provide a permit application with a date after 9/1/1994: Building Permit Application Date (MMDDYYYY) C. Unknown or does not meet the requirements of Answer "A" or "B" 2. Roof Covering: Select all roof covering types in use. Provide the permit application date OR FBC/MDC Product Approval number OR Year of Original Installation/Replacement OR indicate that no information was available to verify compliance for each roof covering identified. 2.1 Roof Covering: Type: Permit Application FEG as MDC Product Approval Product Approval is intended to be replaced by the Installation or Provided for Product Approval is intended to be replaced by the Installation of Roof Installation or Roof installation OR have a roofing permit application date on or after 3/1/02 OR the roof is original and built in 2004 or later. A. All roof coverings have a Miami-Dade Product Approval listing current at time of installation OR have a roofing permit application date on or after 3/1/02 OR the roof is original and built in 2004 or later. B. All roof coverings have a Miami-Dade Product Approval listing current at time of installation OR (for the HVHZ only) a roofing permit application after 9/1/1994 and before 3/1/2002 OR the roof is original and built in 1997 or later. C. One or more roof coverings do not meet the requirements of Answer "A" or "B". D. No roof coverings meet the requirements of Answer "A" or "B". D. No roof coverings meet the requirements of Answer "A" or "B". A. Plywood/OSneined strand board (OSB) roof sheathing attached to the roof truss/rafter (spaced a maximum of 24" inches o. c.) by 8d common nails spaced at 6" along the edge and 12" in the fieldOR- Batten decking supporting wood shakes or wood shinglesOR- Any system of screws, nail	accompany this form. At least one photograph must accompany this form to validate each attribute marked in questions 3									
Permit Application Permit Application Product Approval # Vear of Original Installation or Reglacement Re	the	A.
